Hosted By
Academy of Pediatrics,
Nagpur, Maharashtra

Organized By
Indian Academy of Pediatrics

Venue
Suresh Bhat Auditorium,
Reshimbag Ground, Nagpur

www.pediccon2018nagpur.com
Dear Industry Partner,

Greetings from TEAM PEDICON 2018, Nagpur!

Sub: Sponsorship & Exhibition opportunity in 55th PEDICON 2018 to be held from 4th to 7th, Jan 2018

The Indian Academy of Pediatrics (IAP) is an academic body of Pediatricians / Child Specialists of India & has a membership of more than 23000 members with 400 branches spread all over India. The academy has been founded with the sole purpose of making child care better in India and worldwide. The Academy holds an annual conference- PEDICON every year.

The Nagpur, Maharashtra Branch of IAP is hosting the 55th National Conference of Indian Academy of Pediatrics at Suresh Bhat Auditorium, Reshimbag Ground, Nagpur from 4th – 7th January 2018. This conference is an annual affair and will be attended by over 10,000 Pediatricians from all over the country and abroad.
This mega event gives you an excellent opportunity to showcase your products to the large audience at the conference venue.

This year the conference has a theme with great relevance to present time and social values. It is centered on the comprehensive health care of all children. From New Borns to Teenagers :

“Priority 2018: Healthy New Born – Happy Teen”

Your company had been a major partner and one of the major sponsors for the Academic Activities of IAP especially at the previous PEDICON. We look forward to your full participation as one of the major sponsors for the above mentioned event.

We would like you to come on board as sponsor and exhibitor for trade area and display your product and brief our delegates about them. We also offer you the opportunity for branding of your products and services at the venue at selected sites. Such participation would offer a branding and marketing exercise for the company to our HNI delegates coming from across the country and outside India (Asia Pacific, SAPA, SAARC countries).

We are sure and confident that you will definitely look into this proposition with interest as a fantastic opportunity and platform to enhance your brand by reaching to a large audience at Nagpur.

For further details please feel free to contact us on trade@pedicon2018nagpur.com

Looking forward to your participation in big way!!

Who should participate?

- Domestic and multinational companies and entrepreneurs offering products and services
- Manufacturers and distributors of all types of Pediatric equipments (Endotracheal tubes, Nasal Airways, Stylettes for Endotracheal Tubes).
- Laboratory testing aids (material testers, raw products for basic science)
- Hospital furniture and utilities.
- Medical research consulting firms.
- Medical software solution providers.
- Publishers of medical books and journals.
- Real estate companies.
- Hi-tech appliances manufacturers.
- Automotive companies.
- High end gadgets & accessories manufacturers.
- Drugs and pharmaceutical companies.
- Specialty hospitals.

Key Advantages as Trade Partners or Exhibitors

- Multiple networking opportunities to interact with over 7,000 Pediatrics specialists and thought leaders, over academic and social events.
- Direct access to tomorrow’s leaders as the conference will attract participation from a large number of decision makers from tertiary care and super specialty hospitals.
- A comprehensive educational program that covers all facets of Pediatric treatments and procedures.
- Expanding marketing knowledge through exposure to the newest technologies, research & devices.
- Specially created combination of packages to suit your needs & customized to your budget lines.
- Souvenir advertising options.
- Multiple branding opportunities.

Return on Investment (ROI)

The Indian Pharmaceutical Industry has witnessed a robust growth over the past few years moving on from a turnover of approx. US $1 billion in 1990 to over US $30 billion in 2015 of which the export turnover is approximately US $15 billion. The country now ranks 3rd worldwide by volume of production and 14th by value, thereby accounting for around 10% of the world’s production by volume and 1.5% by value. Globally, it ranks 4th in terms of generic production and 17th in terms of export value of bulk actives and dosage forms. Indian exports are destined to more than 200 countries around the globe including highly regulated markets of US, West Europe, Japan and Australia. It has shown tremendous progress in terms of infrastructure development, technology base creation and a wide range of products. It has established its presence and determination to flourish in the changing environment. The industry now produces bulk drugs belonging to all major therapeutic groups requiring complicated manufacturing technologies. Formulations in various dosage forms are being produced in GMP compliant facilities. Strong scientific and technical manpower and pioneering work done in process development have made this possible.

Recognizing the potential for growth, the Government of India took up the initiative of developing the Indian Pharmaceuticals sector by creating a separate Department in July 2008. The Department is entrusted with the responsibility of policy, planning, development and regulation of Pharmaceutical Industries. An assessment of the Indian Pharmaceutical Industry’s strength reveals the following key features:

- Strong export market- India exported drugs worth US$ 15 billion to more than 200 countries including highly regulated markets in the US, Europe, Japan and Australia. Large Indian pharma companies have emerged as among the most competitive in the evolving generic space in North America and have created an unmatched platform in this space. Indian companies are also making their presence felt in the emerging markets around the world, particularly with a strong portfolio in anti-infective and antiretroviral.
- Large domestic pharma companies have continued to grow, assuming leadership position in many therapies and segments in the Indian market as well as creating a strong international exports back-bone.
- Competitive market with the emergence of a number of second tier Indian companies with new and innovative business modules.
Indian players have also developed expertise in significant biologics capabilities.

- Biologic portfolios while still nascent in India are being built with an eye on the future.
- Multinational companies have continued to invest significantly in India and are making their presence felt across most segments of the Indian pharma market.
- Companies have also begun to invest in increasing their presence in tier II cities and rural areas and making medical care more accessible to a large section of the Indian population.
- Low cost of production.
- Low R&D costs.
- Innovative Scientific manpower.
- Excellent and world-class national laboratories specializing in process development and development of cost effective technologies.
- Increasing balance of trade in Pharma sector.
- An efficient and cost effective source for procuring generic drugs, especially the drugs going off patent in the next few years.
- An excellent centre for clinical trials in view of the diversity in population.

**Experience & Expertise**

India is the only country with largest number of US-FDA compliant plants (more than 262 including APIs) outside of USA. We have nearly 1400 WHO-GMP approved Pharma Plants, 253 European Directorate of Quality Medicines (EDQM) approved plants with modern state of the art Technology. No other country can boast of such an infrastructure. Thus Indian pharma companies have a wide variety of experience in manufacturing as per global standards. Through intense competition in the Indian market, Indian companies are experienced in the manufacturing of a variety of formulations that makes them efficient and competitive in their operations.

The Indian pharma market is mature with decades of experience in generics manufacturing, catering to the needs of the general population. These companies have the experience and know-how to produce quality drugs in an efficient, high-quality and cost effective manner without compromising on any aspect. There are many companies manufacturing drugs for oncology, AIDS and other complex therapies.

**Product Awareness**

With an expected 7000 end users, the event ensures high visibility for trade companies and exhibitors at PEDICON 2018. It provides the seller a platform to launch new products and equipments before a captive business audience. In addition, high value products and services can be showcased to a niche clientele with high levels of disposable incomes.
